If you could persuade Londoners that the danger from Zeppelins was real and imminent you would do them and the constry a service. An Invisible London.

It seems, nevertheless, that there is a 200d military reason for these precultions. London has become invisible, of nearly so. Tennyson's disappointed lover could not now say that he seems is heaven the light of London flaring like a dreary dawn.

The airmen cannot see it. Experiments have been made. An army aviator was ordered from Broadlands to drop a dummy bomb in Hyde Park. He deposited it in the middle of Hempstead Heath, some four miles away, Another was sent from Dover, commissioned to launch a bomb on any part of London, no matter where. He could not find London at all. What the public does not realize is that the South of England is a network of lighted roads and villages and towns. You cannot say where London hereas or early if the

A Turkish Telephone.

It would be interesting to know whether we keep an Ambassador in Constantinople to do the will of the Turks. An undenied telegram to Lon on relating that the Turks at Smyrns had fired on a launch from the United

States cruiser Tennessee says:
"According to unofficial messages the
American Ambassador at Constantinople, Mr. Morgenthau, without investistring the inselect ordered the Tengating the incident, ordered the Tennessee from Turkish waters at the request of Turkish officials."

This is the sind of incident which leads Europeans to ask whether European and American ideas of diplomacy, and even of national self-respect, are the same. It was clearly Mr. Morgenthau's duty to report and await orders from Washington. He seems to have chosen to make himself the telephone of the Turkish Government.

To-day comes a dispatch from Washington to "The Times" saying:

"It is widely and apparently authoritatively announced that, come what may, President Wilson does not propose to be dragged into complications with Turkey."

In other words, Turkey may insult the American flag and fire on American flag and flag and

Eight Hundred See Selves on Screen-Man Proves Useless at Darkening Windows. Mrs. Clarence Burns, head of the

wrapping paper and cover up the wind dows."

They got the wrapping paper and appealed to Mrs. Burns once more.

"How'll we fasten it up?" they said.

"We ain't got no tacks."

Mrs. Burns, who is a suffragist, lost patience.

"Well, aren't men helpless!" she exclaimed. "A woman would take some pins, or hairpins, and have that paper up in a jiffy. Do get some pins somewhere and fasten it up."

"Ultimately the paper was tacked up with pins contributed by women guests at the festival.

The 800 little mothers thought the moving pictures immense, especially when the films showed them their own selves at play in Central Park last summer. Besides the pictures there were some vaudeville "stunts" by one extra clever little mother.

She waved her hand at the assemblage, which showed a discouraging number of purely feminine looking women. But they all wore reformed dress—oh, yes. Waists were at a discount and faost of the garments hung straight from the shoulders. But the bifurcated ones could be counted on the fingers.

Many of the women declared that if they had understood pants were to be worn they would have been delighted to come so attired. Mrs. London, was one of these.

"I wear trousers all the time at home," she said. "I would have wellowed a chance to wear them in New York without being arrested."

would appear there in force.

The first feminist ball took place last night at Leslie Hall, in 83d st., just west of Broadway. Women in trousers were there. Miss Florence King, suffragist and settlement worker, was in picturesque overalls, a blue smock and a straw hat, such as farmers wear. Miss Alice Strope, Miss Rodman's adopted daughter, looked truly masculine in khaki "pants" and shirt, with her hair cut short. Dancing with Commissioner Howe, of Ellis Island, she made quite a picture of emancipation.

Miss Virginia Schoenwall wore American trousers and a Chinese shirt on the outside, allee samee Chinese, with a pigtail fastened to the back of her head. A few women were in Turkish trousers, and Miss Helen Gibert looked quite advanced in baggy yellow trousers and an upper garment of Futurist silk.
